Description

RRA Koroška, the Regional Development Agency for Koroška, d.o.o., (RDA Koroška d.o.o.) is responsible for the acceleration of local and regional development in economic, social, spatial, and environmental fields. As an organization that promotes regional development, RRA Koroška carries out public-interest tasks regarding the Koroška region. Its primary activities are identification and realization of project ideas, the preparation and monitoring of regional development programs and regional projects; project management and collaboration at implementing calls for tenders, public procurements, and public-private partnerships. In association with local communities and other regional institutions, RRA Koroška carries out management consulting, informing, transferring knowledge and good practice. It implements regional financial schemes such as guarantees schemes and scholarship schemes. The organization is also responsible for promoting and investing in the region and carries out other tasks based on the region development, including inter-regional and transboundary cooperation. With the desire for cooperation between companies and for investing in the Koroška region, RDA Koroška represents opportunities that our companies offer to business partners as well as to foreign and domestic investors.
